DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/29/02 has been entered. An action on the RCE follows.
2. Claims 1-3 and 5-6 are pending.
3. Claims are limited a single group. However, Applicant is required elect a single patentably distinct sequence for each monomer comprising: a finger 1 sub domain, a finger 2 sub domain, a heel sub domain, and C-terminal cysteine skeleton.
4. For finger 1 sub domain Applicant is required to elect a single sequence from SEQ No: 40-63, 83 and 87.
5. For heel sub domain Applicant is required to elect a single sequence from SEQ No: 40-63, 83 and 87.
6. The claims are drawn to multiple polypeptide sequences. Each of the different sequences are independent and distinct because no common structural or functional properties are shared. Accordingly, these sequences are each subject to restriction under 35 U.S.C. § 121. Applicant is additionally required to elect a single polypeptide sequence, which if determined to be patentable, would also be patentably distinct from the other polypeptide sequences. This requirement is made under 1192 O.G.68 Notice

(November 19, 1996), as examination of more than one sequence in one application would result in an undue burden on the PTO.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
